

BTCPay and Electrum Screenshot walk-through

Heady Wook

2020.02.24

BTCPay Jungle

The screenshot shows a web browser window with the URL <https://btcpayjungle.com/Account/Login>. The page features a logo of a tree with the word "BTCPAY" below it. The main heading is "BTCPay Jungle". A "Sign In" form is centered, containing fields for "Email address" and "Password", along with a "Sign in" button and a "Create your account" link. A "Copy Tor URL" link is also present. Below the sign-in form, there is a section titled "Our Supporters".

The screenshot shows a web browser window with the URL <https://btcpayjungle.com/Account/Register?logon=true>. The page features a logo of a tree with the word "BTCPAY" below it. The main heading is "Welcome to BTCPay Jungle". Below it, a message reads: "The first original btcpay hosted, open-source bitcoin payment processor. It is secure, private, censorship-resistant and free. 🛡️ Don't Trust. Verify." A green banner at the top states "Account created, please confirm your email". A "Create account" form is displayed, with fields for "Email" (containing "jhvfterc@sharklasers.com"), "Password", and "Confirm password", and a "Create account" button.

The screenshot shows a web browser window for Guerrilla Mail. The address bar displays https://www.guerrillamail.com/inbox?mail_id=9671151. The main content area features the Guerrilla Mail logo and a message about avoiding spam with disposable email addresses. Below this, a form shows an email address `jhvfterc @ sharklasers.com` and a link to scramble it. A green button labeled "EMAIL" is highlighted. The message body contains an email confirmation from support@btcpayjungle.com to jhvfterc, dated 2021-02-21 17:53:58, with a link to confirm the account.

The screenshot shows a web browser window for BTCPAY. The address bar displays <https://btcpayjungle.com/stores>. The page header includes the BTCPAY logo and navigation links for STORES, APPS, WALLETS, INVOICES, PAYMENT REQUESTS, and user profile. The main content area is titled "Stores" and includes a sub-instruction "Create and manage store settings." A green button labeled "+ Create a new store" is visible. A message states "There are no stores yet." At the bottom of the page, the URL <https://btcpayjungle.com/stores/create> is shown in the footer along with the copyright notice "@Copyright BTCPayServer v1.0.6.5".

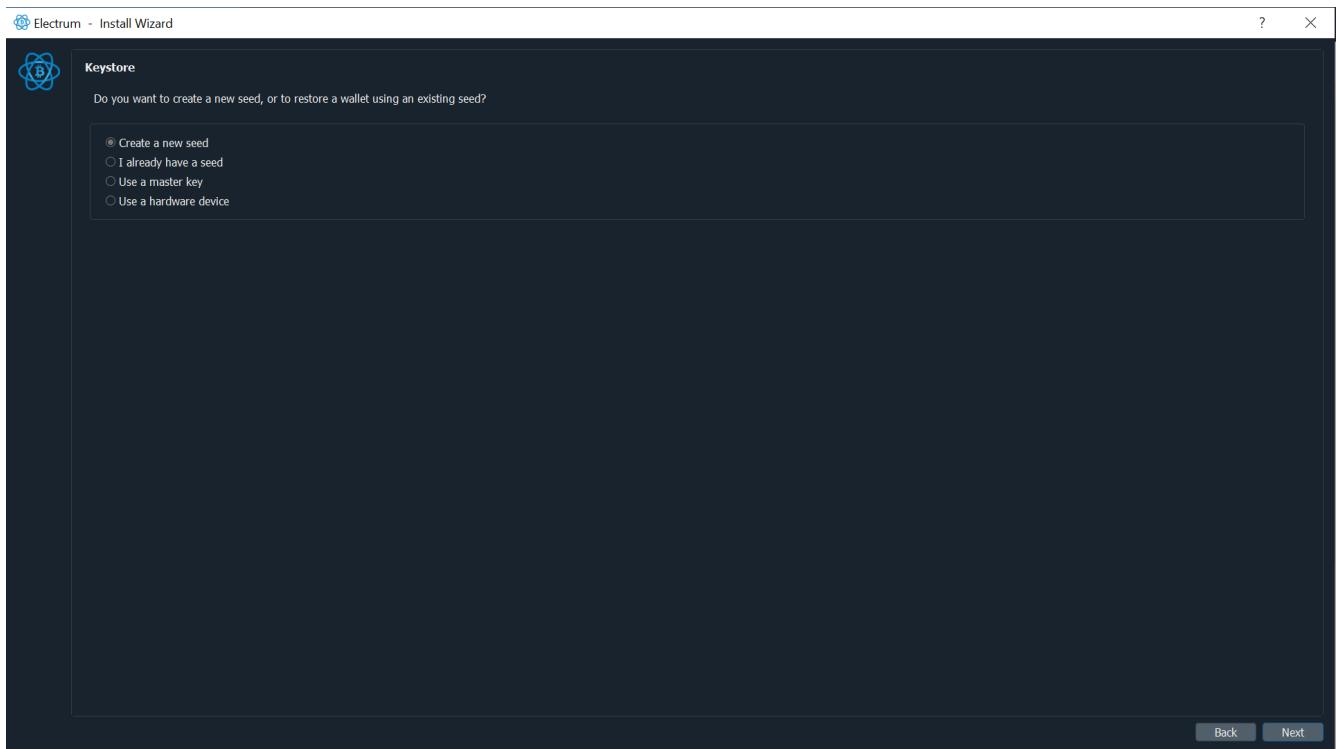

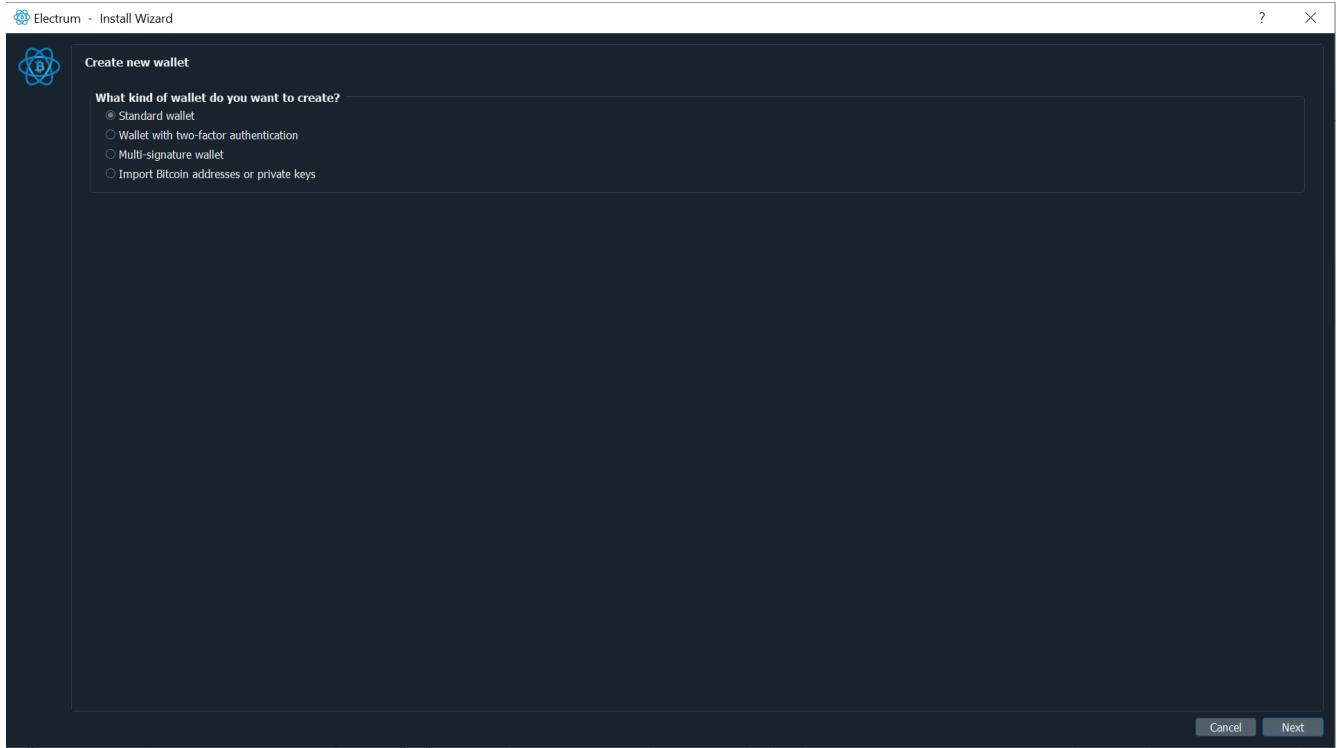

The screenshot shows a web browser window for creating a new store on BTCPay Server. The URL is <https://btcpayjungle.com/stores/create>. The page has a header with the BTCPAY logo and navigation links for STORES, APPS, WALLETS, INVOICES, PAYMENT REQUESTS, and user account. The main content area is titled "Create a new store". It has a "Name*" field containing "My Store Name - Home", a "Create" button, and a "Back to List" link. At the bottom, there's a footer note about the logo being made with love by ibuki and copyright information for BTCPayServer v1.0.6.5.

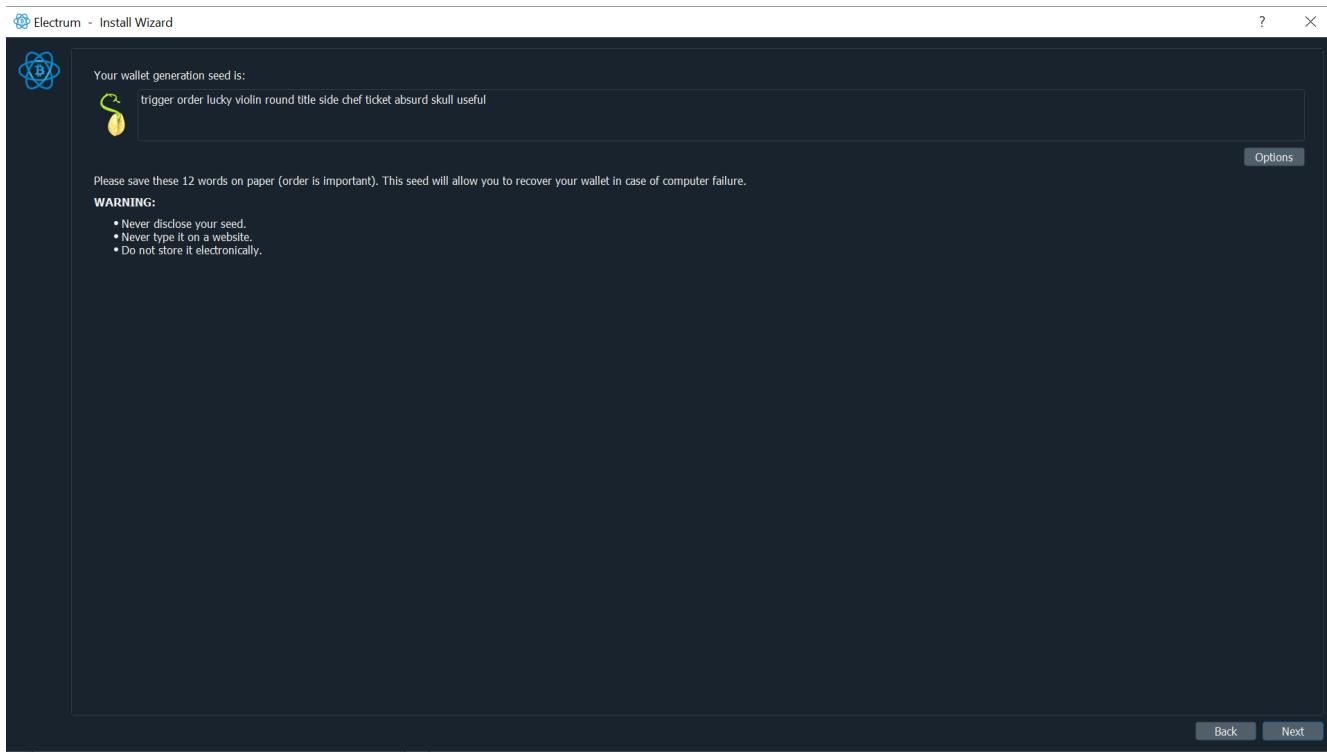

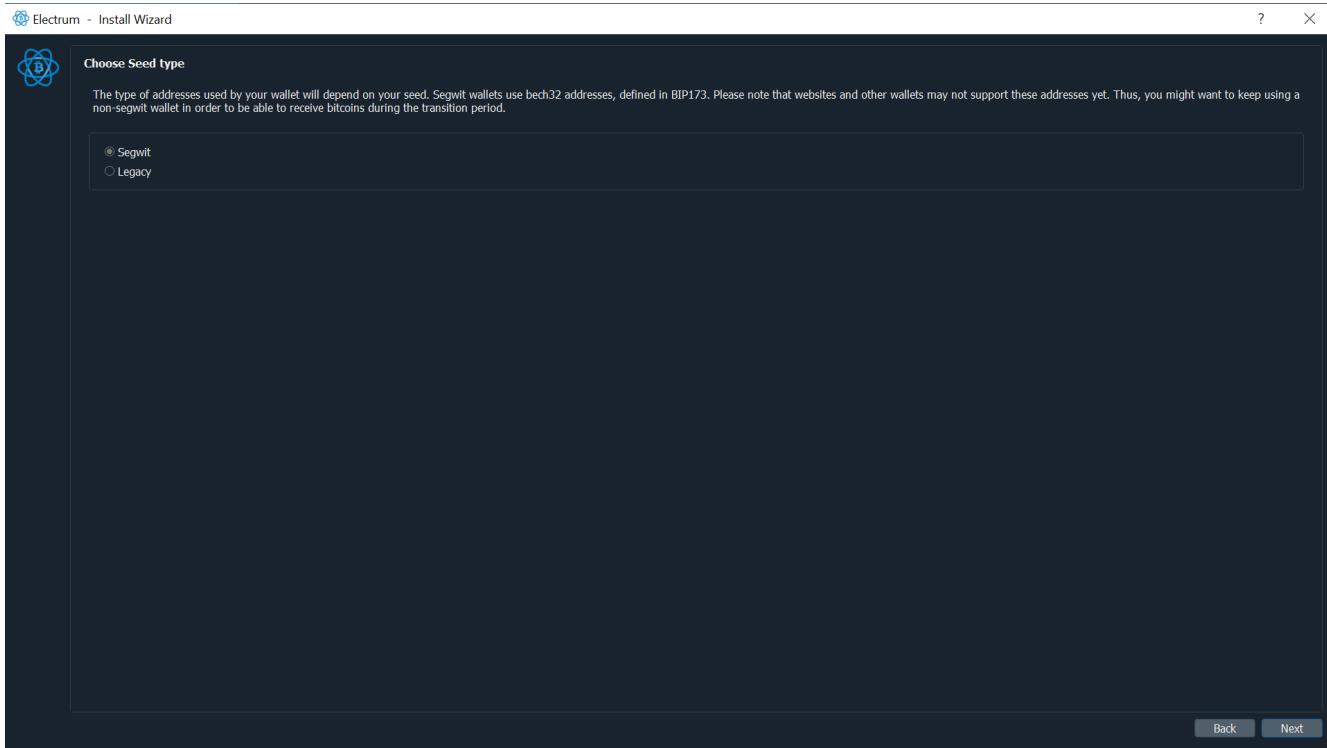

The screenshot shows a web browser window for managing a store named "My Store Name - Home". The URL is <https://btcpayjungle.com/stores/VAGJiT62j4vJMis8LvhUc3rFSgSMepyBHHrFTTG8YN>. The page has a header with the BTCPAY logo and navigation links. The main content area is titled "Manage store: My Store Name - Home". On the left, there's a sidebar with "General settings" selected, showing other options like Rates, Checkout experience, Access Tokens, Users, Pay Button, Integrations, and Webhooks. A green banner at the top right says "Store successfully created". In the main content area, there are sections for "Wallet" (BTC is selected, status: Disabled, Setup button) and "Lightning" (status: Disabled, Setup button). There's also a "General" section with a "Store ID" field containing the store's URL.

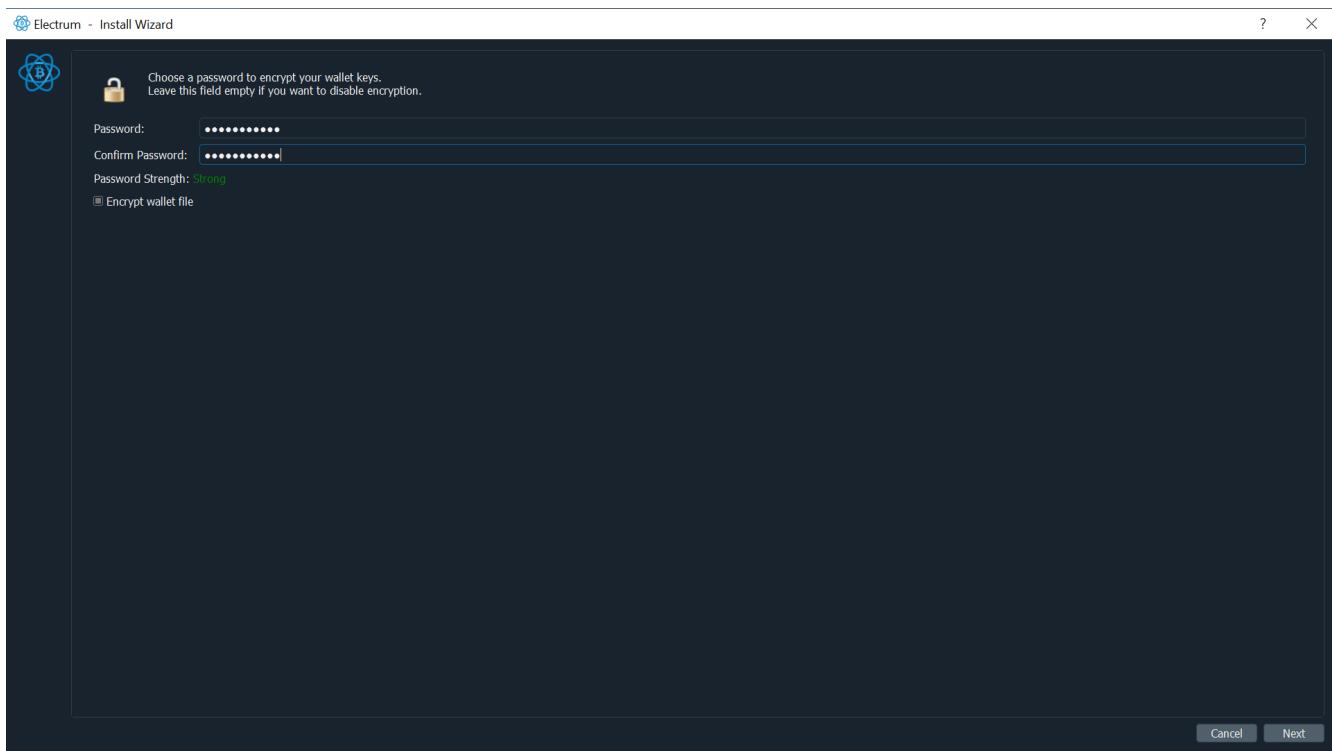

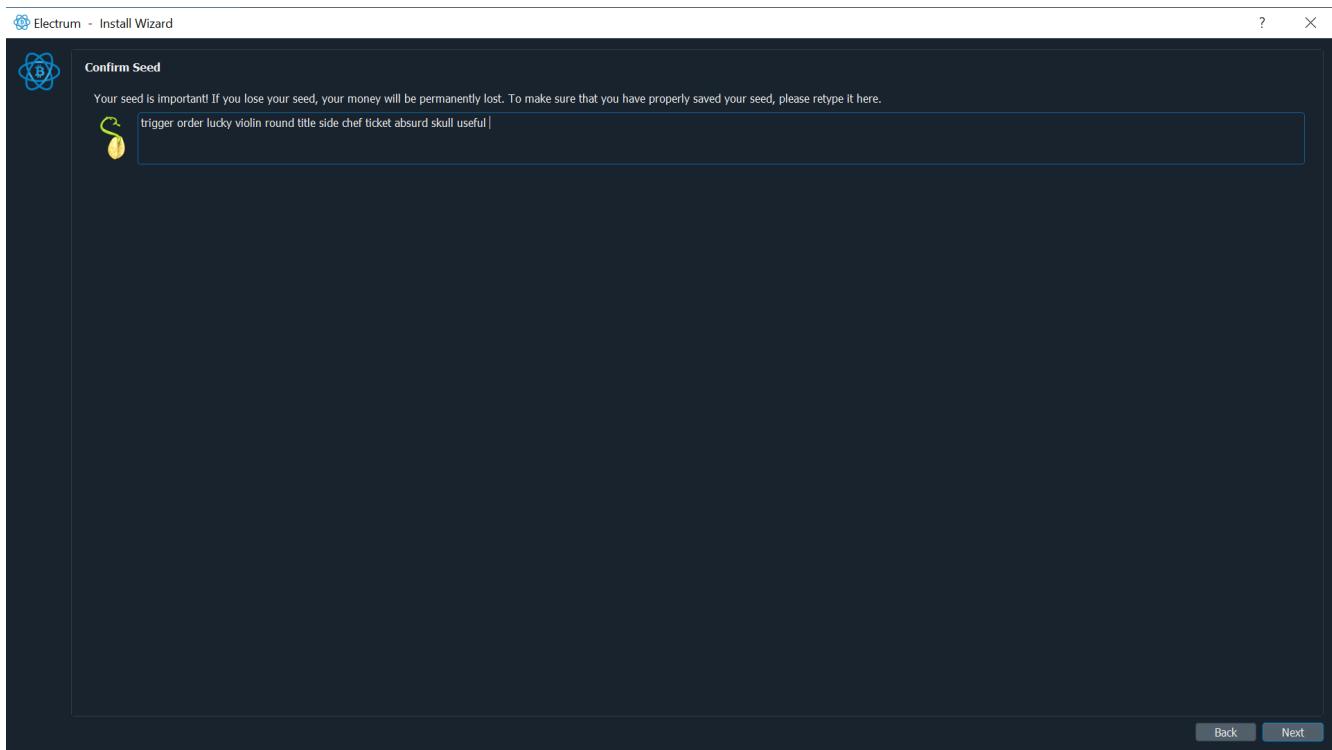

The screenshot shows the BTCPAY interface with the title "Manage store: BTC Derivation scheme". On the left, a sidebar lists "General settings" (selected), "Rates", "Checkout experience", "Access Tokens", "Users", "Pay Button", "Integrations", and "Webhooks". The main content area is titled "Derivation scheme" with a description: "A derivation scheme facilitates generation of the destination addresses for your invoices so funds can be received on-chain." It includes a "Derivation scheme" input field and an "Import from..." button. Below is a table of address types and examples:

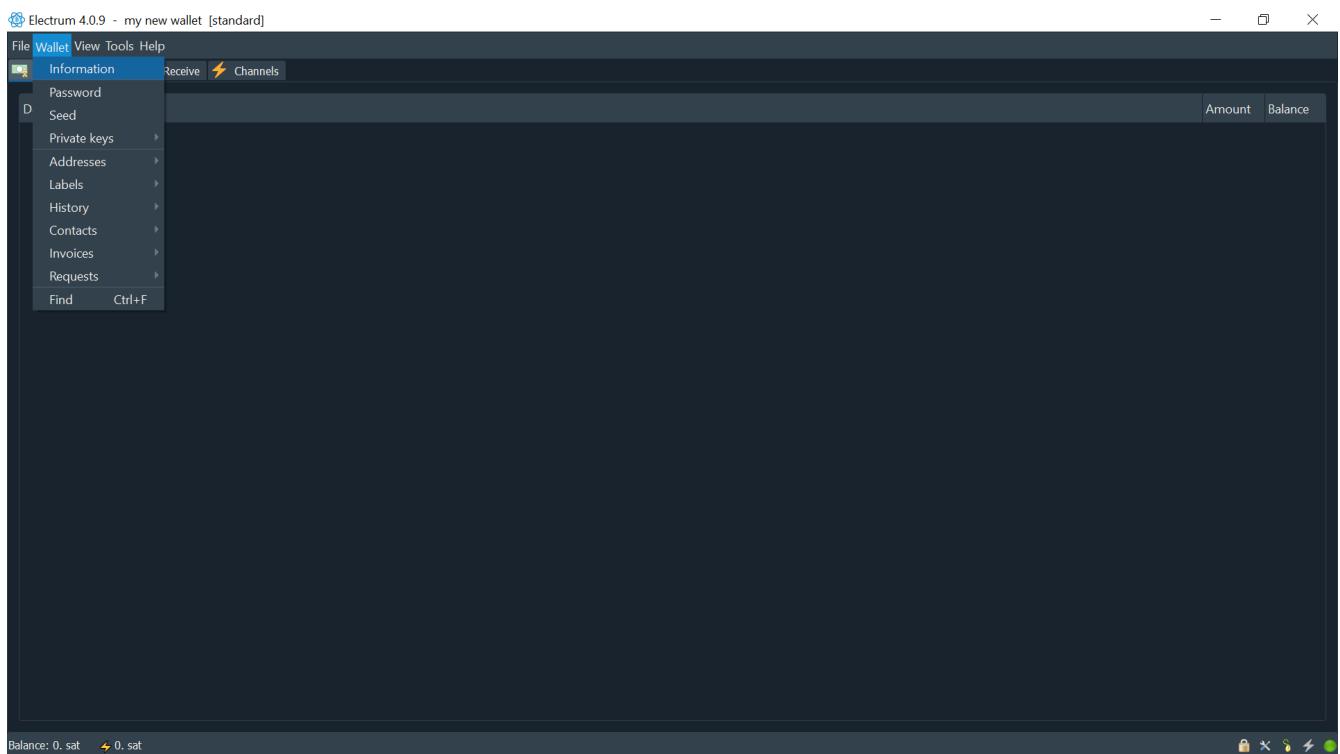

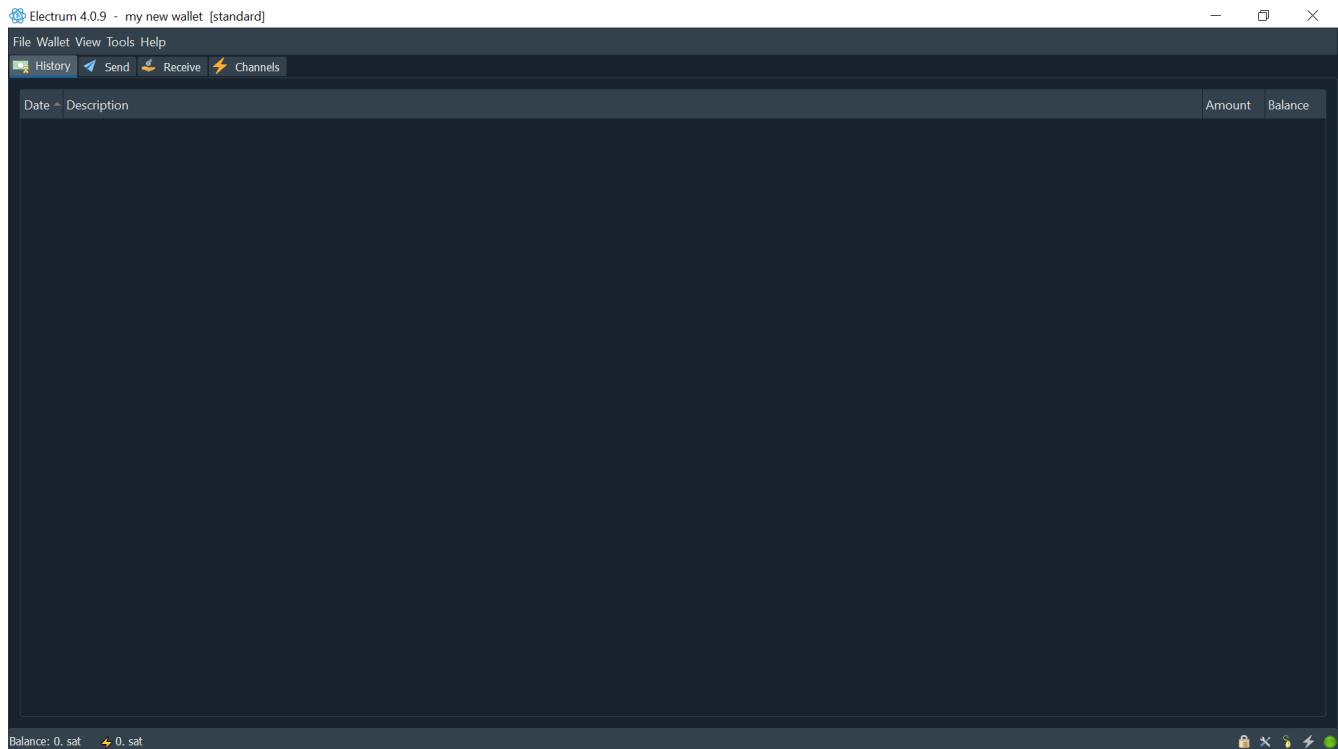

| Address type | Example |
|----------------------|-------------------------------|
| P2WPKH | xpub... |
| P2SH-P2WPKH | xpub...-[p2sh] |
| P2PKH | xpub...-[legacy] |
| Multi-sig P2WSH | 2-of-xpub1...-xpub2... |
| Multi-sig P2SH-P2WSH | 2-of-xpub1...-xpub2...-[p2sh] |

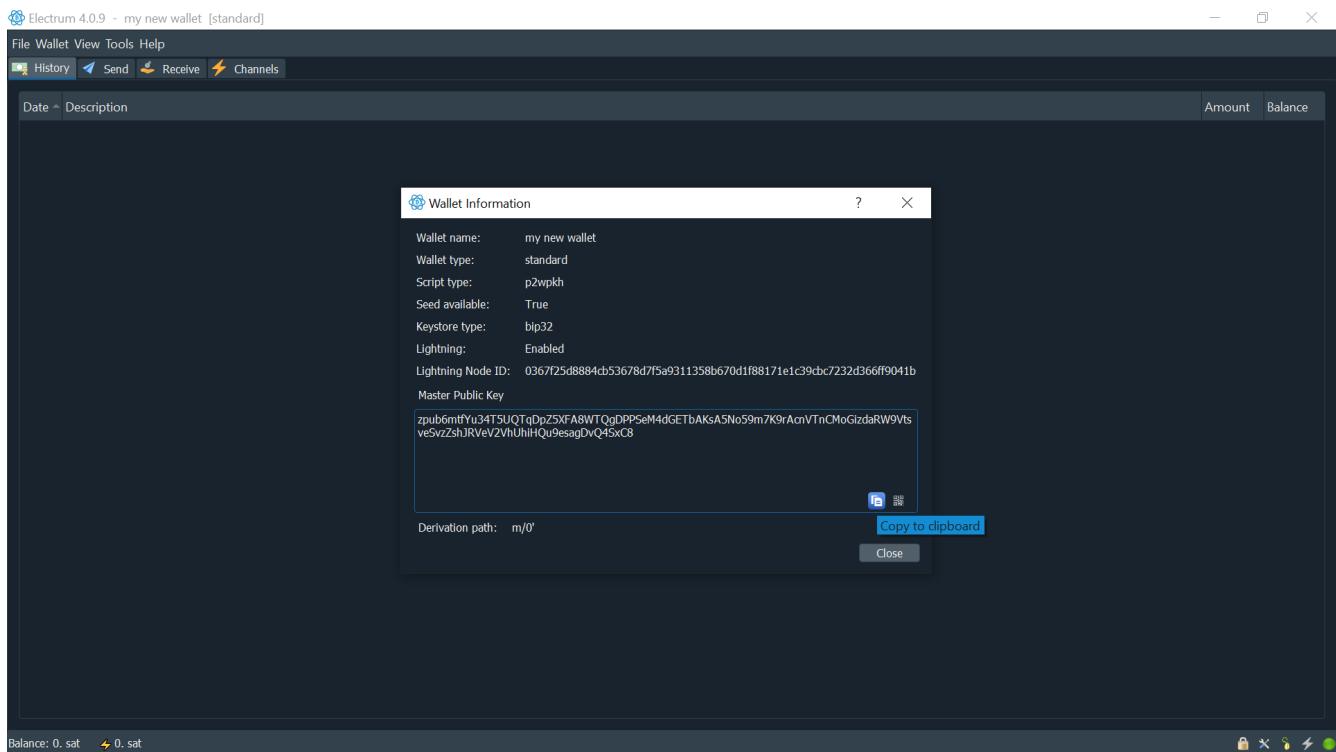

The screenshot shows the Electrum - Install Wizard with the title "Electrum wallet". It displays a "Wallet:" dropdown set to "My New Wallet" and a "Choose..." button. A message states: "This file does not exist. Press 'Next' to create this wallet, or choose another file." At the bottom are "Cancel" and "Next" buttons.

The screenshot shows the "Manage store: BTC Derivation scheme" page in the BTCPay Server interface. The left sidebar lists settings like General settings, Rates, Checkout experience, Access Tokens, Users, Pay Button, Integrations, and Webhooks. The "General settings" tab is active.

The main area displays the "Derivation scheme" configuration. It includes a description: "A derivation scheme facilitates generation of the destination addresses for your invoices so funds can be received on-chain." Below this is a text input field containing the same Master Public Key as shown in the Electrum dialog:

```
zpub6mtfYu34T5UQTqDpZ5XFA8WTQgDPPSeM4dGETbAKsA5No59m7K9rAcnVTrCMoGizdaRW9Vts  
veSvzZshJRVeV2hUhHQ9esagDvQ45xC8
```

Below the input field is an "Import from..." button. To the right, there is a table mapping address types to examples:

| Address type | Example |
|----------------------|------------------------------|
| P2WPKH | xpub... |
| P2SH-P2WPKH | xpub...-[psh] |
| P2PKH | xpub...-[legacy] |
| Multi-sig P2WSH | 2-of-xpub1...-xpub2... |
| Multi-sig P2SH-P2WSH | 2-of-xpub1...-xpub2...-[psh] |

The screenshot shows the 'Apps' section of the BTCPay interface. At the top, there's a navigation bar with tabs for 'STORES', 'APPS', 'WALLETS', 'INVOICES', and 'PAYMENT REQUESTS'. Below the navigation is a search bar and a user profile icon. The main content area is titled 'Apps' and contains a sub-header 'Create and manage apps.' A green button labeled '+ Create a new app' is visible. A message below the button states 'There are no apps yet.' The URL in the browser is <https://btcpayjungle.com/apps>.

The screenshot shows the 'Create a new app' form. The title 'Create a new app' is at the top. The form fields include: 'Name*' with the value 'My New Store App'; 'App type*' with the value 'PointOfSale'; 'Store*' with the value 'My Store Name - Home'; and a 'Create' button. Below the form is a link 'Back to the app list'. The URL in the browser is <https://btcpayjungle.com/apps/create>. The footer includes the text 'Logo made with ❤ by ibuki' and '©Copyright BTCPayServer v1.0.6.5'.

This screenshot shows the BTCPAY Settings POS interface. At the top, there are tabs for "Update Point of Sale" and "charmander — Postimages". The main content area has a header with the BTCPAY logo and navigation links: STORES, APPS, WALLETS, INVOICES, PAYMENT REQUESTS, and user icons.

The main area contains two sections:

- Description**: A rich text editor with a toolbar containing icons for bold, italic, underline, etc. The text area contains the text "This is my new store!".
- EmbeddedCSS**: An empty text area.

This screenshot shows the same BTCPAY Settings POS interface as the previous one, but with a focus on the "Description" section.

The "Description" section now displays the raw HTML code: <p>This is my new store!</p>. The "Code View" button in the toolbar is highlighted with a red box.

The "EmbeddedCSS" section remains empty.

The screenshot shows a web browser window with two tabs: "Update Point of Sale" and "charmander — Postimages". The active tab is "charmander — Postimages" at the URL <https://btcpayjungle.com/apps/4JLdtVdqE33pC1jn1A5eEUWbcXAn/settings/pos>. The page header includes the BTCPAY logo and navigation links: STORES, APPS, WALLETS, INVOICES, PAYMENT REQUESTS, and user icons.

The main content area is titled "EmbeddedCSS" and contains a large empty text input field. Below this are several buttons: "Save Settings" (green), "Invoices" (light green), "View App" (light green), and "Back to the app list" (light green). Further down are three sections with links: "Embed Payment Button linking to POS item", "Embed POS with Iframe", and "Notification Url Callbacks".

The screenshot shows the "Update Point of Sale" configuration page. The title "Update Point of Sale" is displayed prominently. A green success message bar at the top right says "App updated".

The form fields include:

- Title***: My Store
- Currency***: SATS
- Default view***: Static
- Options**:
 - User can input custom amount
 - User can input discount in %
 - Enable tips
- Text to display on each buttons for items with a specific price***: Buy for {0}

Screenshot of the BTCPay Server interface showing the "charmander — Postimages" app settings page.

The top navigation bar includes links for STORES, APPS, WALLETS, INVOICES, PAYMENT REQUESTS, and user account information.

Below the navigation, there are four buttons: Save Settings (green), Invoices (grey), View App (grey), and Back to the app list (grey).

The main content area contains three sections:

- Embed Payment Button linking to POS item
- Embed POS with Iframe
- Notification Url Callbacks

The URL in the address bar is <https://btcpayjungle.com/apps/4JLdtVdqE33pC1Jn1A5eEUWbcXAn/settings/pos>.

Screenshot of the BTCPay Server interface showing the "My Store" page.

The top navigation bar shows the current tab is "My Store".
